

Green Up Mossfree

A fast acting iron-based mosskiller for all types of lawns
FOR USE AS A HOME GARDEN LAWN TREATMENT

INSTRUCTIONS FOR USE

WHEN TO USE

Green Up Mossfree is a fast acting iron-based mosskiller for all types of lawns. It quickly blackens and kills moss and at the same time improves the colour of the grass, strengthening and increasing disease resistance. Children and pets may be allowed onto treated areas when product has dried onto foliage.

WHERE TO USE

Green Up Mossfree should be applied using a watering can and rose or sprayer in Autumn or Spring when the soil is moist. Do not apply in drought, freezing conditions or when rain is imminent. Grass should not be cut 3 days before and not cut again for at least 4 days after treatment.

HOW TO USE

Mix 120g in 10 litres (approx 2 gals) of water until dissolved before adding the liquid to a watering can or sprayer and apply evenly to an area of 10 m² (12 sq yds). Rinse out equipment after use.

Remove dead moss by thoroughly raking after 7 days. Heavy infestations may need a repeat application after 4-6 weeks.

Following treatment apply Green Up Liquid Lawn Feed after raking for rapid recovery of the lawn and a high quality turf.

NOTE: Store in a dry place. Avoid accidental spillage onto clothing, paths or other hard surfaces as staining may occur.

This product is approved under the Control of Pesticides Regulations 1986.
